

Over 1 million
estimated cancer
survivors live in
New York State.

CARING FOR CANCER SURVIVORS IN PRIMARY CARE

The Cancer Survivorship E-Learning Series

Ten, 1-hour modules about caring for patients surviving adult onset cancers, including:

- Role of primary care providers (PCPs);
- Meeting the psychosocial needs of survivors;
- Prevention of secondary cancers and cancer recurrence;
- Survivorship care coordination;
- Cancer recovery and rehabilitation;
- Spotlights on prostate, colorectal, breast, head/neck cancers, and more.
